

Recording Engineer Job Description
Voice of the Shuswap Broadcasting Society
250.463.5026

Salary: \$20.00/Hour
Job Type: 20 hours/44 weeks
Start Date: April 17th 2016
Minimum Education: N/A
Positions Available: 1

The successful candidate for this position will work with the CKVS project coordinator and theatre groups to organize the recording of a number of plays performed in the old time radio style. These recordings will be done in front of a live audience with each event having a fundraising aspect. The engineer must be prepared for local travel as the recordings may be done by a number of out of town theatre groups, and take part in some of the event organization.

Duties

- transport the recording equipment to the event,
- set up and sound check,
- record at least one performance of the play
- tear down the equipment and transport it back to the station
- perform necessary edits to make the recordings broadcast quality
- completion of required paperwork for each recording
- dub copies of the final version for each theatre group

Desired skills & experience:

- Familiarity with computer operation
- A basic knowledge of audio recording/signal flow is preferred
- Knowledge of use and care of sound equipment is preferred
- Knowledge or willingness to learn audio editing
- Able to lift and carry equipment (mic stands, mics, cables, recorder)
- Attention to detail
- Able to work independently
- Punctuality and reliability
- Flexible hours (events may occur on weekends)
- Valid BC driver's license and own transportation preferred (travel costs will be covered)
- a pleasant professional attitude and work ethic
